

FREQUENTLY ASKED QUESTIONS

1. What is the Wellness and Longevity Speaker Series?

Club Leaders Forum has arranged for longevity physicians to provide expert-led speaker series for Private Clubs members. These events occur over a 60-minute presentation followed by a Q&A session focused on Managing The Trajectory of Aging and are of no financial obligation to the Club. Other topics in the speaker series include a presentation on Regenerative (Stem Cell) Medicine, Liver Health, and Cognitive Function.

2. Why has Club Leaders Forum formed a partnership with Human Longevity, and how does this benefit Private Clubs and Members?

The partnership was created to provide Private Clubs and their Members with educational and diagnostic opportunities to Managing The Trajectory of Aging through data-driven science and genetics with the foremost leader in this field.

3. What is Human Longevity?

Human Longevity combines cutting-edge diagnostics, including genomics, blood biomarkers, and detailed imaging, to establish the Human Longevity Members' baseline. The diagnostics and precision longevity care are combined to help Members attain their best performance and Manage The Trajectory of Aging.

4. Who founded Human Longevity?

Founded in 2013 by genomics pioneer Dr. Craig Venter, Human Longevity is a scientific research leader at the forefront of global healthcare in preventive and precision medicine using data-driven, precision-based personalized medicine that can not only intervene but can also eliminate cancers and other significant diseases. Their work is devoted to prolonging the human lifespan and improving quality of life.

5. What's the difference between Human Longevity and the finest clinics in the world, such as the Mayo Clinic, Cleveland Clinic, and Scripps, that perform Executive Physicals?

Human Longevity is similar to a Private Club, with Membership benefits that extend beyond the day of the executive physical. Human Longevity Members engage in the most comprehensive executive physical, combining diagnostics such as Whole Body, Cardiac, Brain MRI, and genetic analysis utilizing artificial intelligence. Subsequently, Human Longevity physicians work harmoniously with your Members' primary care physicians, concierge doctors, and your Club's fitness and wellness staff..

6. What is Human Longevity's relationship with Harvard Medical School?

Human Longevity has a strategic collaboration with Massachusetts General Hospital, the original and largest teaching hospital of Harvard Medical School. Human Longevity Members can access experts via Human Longevity's partnership relationship with the Mass General Hospital as required.

7. How is Club Leaders Forum addressing the Members' demand for Wellness and Longevity services in Private Clubs across America?

Over the last five years, Members of Private Clubs have increased their demand for wellness and longevity services and programs in addition to the traditional fitness experience. Club Leaders Forum has developed the Speaker Series on Managing The Trajectory of Aging to support Private Clubs in this highly specialized and ever-changing area.
